Career Objective

A passionate and detail-oriented BCA graduate seeking an entry-level position as a Python Developer. Eager to apply my skills in Python, problem-solving, and web development to contribute to a dynamic organization while learning and growing in the field of software development.

Technical Skills

- Languages: Python, C, C++, JavaScript, PHP
- Web Technologies: HTML, CSS, Flask
- Database: MySQL
- Tools: VS Code, Git
- Other: Basic understanding of OOPs, CRUD operations, API integration

Projects

1. Library Management System (Python | Flask | MySQL)

- Developed a web-based system to manage library books, members, and issued/returned records
- Used Flask framework for routing and templates, and MySQL for database

2. Coffee Shop CRM (PHP | MySQL)

- Built a customer relationship management system for a small cafe
- Features: order management, billing, customer details, and feedback storage

Education

Bachelor of Computer Applications (BCA)

Poddar International College, Jaipur | 2023 - 2025 | 65%

12th (RBSE)

PN Public School | 2021 | 88%

10th (RBSE)

PN Public School | 2019 | 60%

Strengths

- Quick Learner
- Team Player
- Good problem-solving ability
- Strong interest in backend development and Python programming

Declaration

I hereby declare that the above information is true to the best of my knowledge.
